To Whom It May Concern:

This is a letter of highest commendation for Dr. Facundo Iriarte as a surgeon of highest quality, technical finesse, professional integrity, and astute clinical judgment. I have known Dr. Iriarte for the past 3 years and worked with him on a daily basis. He has consistently demonstrated rational and thoughtful clinical reasoning, scientific rigor, and technical confidence with excellent surgical outcomes. There is no question that he is very talented and compassionate as a physician and surgeon. Additionally he has high emotional intelligence and has demonstrated impassioned professional commitment toward building collegial relations among an international forum of thoracic surgeons through his activities as coordinator for ACTA (Alianza de Cirugia Toracica de las Americas).

I strongly recommend him to be inducted into the Thoracic Societies in Argentina and am confident that he will be a rising star within your esteemed organization.

Thank you for your consideration.

Sincerely,

Stacey Su MD MBA
Chief of Thoracic Surgical Oncology
Program Director, Minimally Invasive Fellowship for Thoracic Surgical Oncology
Fox Chase Cancer Center
